Missouri Department of Agriculture Department Overview

The Missouri Department of Agriculture (MDA) provides leadership for Missouri's agricultural community through programs that build economic opportunity. Our new mission is to be the leading state agency in the marketing of all food and agricultural products. This will continue to compliment our regulatory functions. We value agricultural innovation and success. We make it our mission, through agricultural business development and market information, to maximize the return of today's agricultural products while implementing strategies to generate opportunities for the future. Concurrently, through animal and plant health, grain storage auditing and inspection, weights and measures testing, and milk inspection, MDA provides the framework for food safety and helps ensure the integrity of the marketplace. MDA also builds partnerships with industry, universities and all levels of government to ensure that producers and agri-businesses have the tools necessary to reach their full potential.

This flexibility is needed to maximize the efficiency of available financial resources and to meet the department's statutory responsibilities.		The Governor recommended twenty percent (20%) flexibility between Personal Services and Expense & Equipment for GR funding.	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount			
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
None	The Director's Office believes that it may need to flex up to 20% of its FY 2006 Personal Services and/or Expense and Equipment appropriation.	The Director's Office believes that it may need to flex up to 20% of its FY 2007 Personal Services and/or Expense and Equipment appropriation.

Under current statutes, a qualified biodiesel producer is eligible for a total grant in any fiscal year equal to 30 cents per gallon for the first 15 million gallons of qualified biodiesel produced from Missouri agricultural products, plus ten cents per gallon for the next 15 million gallons of qualified biodiesel production. A Missouri qualified biodiesel producer is eligible to receive grants for a total of 60 months.

This request provides payment for anticipated biodiesel production at a plant located in Mexico, Missouri. The plant will have a 30 million gallon capacity and is expected to begin production in January 2007.

This request will replace 38 high-mileage, high-cost vehicles that are no longer adequate for program operations. As of June 30, 2005, 46 percent (i.e. 120) of the department's vehicles exceeded 100,000 miles. Over 57 percent (i.e. 70) of the department's GR vehicles had more than 100,000 miles at the end of FY 2005.

The department has taken a hard look at its vehicle replacement needs and is requesting replacements for only those vehicles that are critical to program operations. Therefore, although the request will replace only about one-fourth of the GR vehicles that exceed 100,000 miles, we believe the request will meet our most important program requirements.

2. CORE DESCRIPTION

The Agriculture Business Development Division (ABDD) helps to increase the profitability of Missouri's farmers and agribusinesses by increasing international and domestic sales of agricultural products that are grown, raised or processed in Missouri. Our vision is to be a leader in agriculture business development and a valued partner to Missouri's farmers, agribusinesses, farm organizations and public sector organizations. Our mission is to provide business development services, including international and domestic marketing assistance, targeted business counseling, industry facilitation, product promotion and financial programs.

The Market Information & Outreach program provides unbiased and timely commodity pricing information for livestock, grain and timber. The program also works to educate producers about opportunities to improve the overall quality of livestock in Missouri. The program also provides programs and services that support the development of, and create opportunities for, Missouri's agricultural based youth. We encourage young men and women to pursue education and careers in the agriculture industry through programs such as the Missouri Agribusiness Academy. The program promotes agriculture and MDA services to urban, rural, farm and non-farm audiences as a means of educating and informing the public, and actively works to enhance the awareness and image of agriculture.

We also have a portfolio of three branded programs to increase consumer awareness and sales of products grown, raised and processed in Missouri: AgriMissouri (program funding and review included on separate forms), Grape & Wine Program (program funding and review included on separate forms), and the Grow Native! branded program.

To help facilitate global sales of Missouri agricultural products, we have an office in Taiwan. Additionally, we partner with Missouri Department of Economic Development and trade organizations for in-country representation in other regions in other parts of the world.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 35310C		DEPARTMENT: Agriculture	
BUDGET UNIT NAME: Agriculture Business Development		DIVISION: Agriculture Business Development	
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.			
DEPARTMENT REQUEST		GOVERNOR RECOMMENDATION	
We are requesting flexibility in the Agriculture Business Development General Revenue (GR) Personal Service and/or Expense and Equipment appropriation, provided that not more than thirty percent (30%) flexibility is allowed between each of these appropriations. This flexibility is needed to maximize the efficiency of available financial resources and to meet the department's statutory responsibilities.		The Governor recommended thirty percent (30%) flexibility between Personal Services and Expense & Equipment for GR funding.	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount			
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
None	The Agriculture Business Development division believes that it may need to flex up to 30% of its FY 2006 Personal Services and/or Expense and Equipment appropriation.	The Agriculture Business Development division believes that it may need to flex up to 30% of its FY 2007 Personal Services and/or Expense and Equipment appropriation.	
3. Was flexibility approved in the Prior Year Budget or the Current Year Budget? If so, how was the flexibility used during those years?			
PRIOR YEAR EXPLAIN ACTUAL USE		CURRENT YEAR EXPLAIN PLANNED USE	
Not applicable		The division has experienced significant funding reductions in recent fiscal years. The requested flexibility will most likely be used for essential Expense and Equipment expenditures (e.g. maintenance, repair, or replacement of equipment; supply purchases; etc.) that would impair the department's operation if not made.

Our primary strategies include:

1. Increase consumer awareness of products grown, raised and processed in Missouri.
2. Link Missouri farmers and agribusinesses with international and domestic buyers.

Program Name: Market News Program

Program is found in the following core budget(s): Division of Ag Business Development

1. What does this program do?

The Market News Program compiles daily market information on price, quantity and quality of livestock, grain and timber being sold in Missouri. This unbiased market news information is made available to the public both daily and weekly. Full and part-time market news reporters are employed throughout the state reporting markets from 18 livestock auctions, the interior hog market, direct slaughter cattle and the Missouri cash grain market. Market news information is disseminated to the public daily through the Internet, media (including radio, newspaper and television), a market news hotline, and the Weekly Market Summary which is available for an annual subscription fee of \$25. The Chicago Mercantile Exchange uses our market news information to establish the national daily weighed average feeder cattle price. This information, in turn, is used as a base for feeder cattle futures contract settlements. Market reporters also apply USDA grading standards on livestock to add market value and encourage the production of uniform, high quality animals.

2. CORE DESCRIPTION				
<p>This program, established in 1985, increases consumer awareness of products that are grown, raised and processed in Missouri in order to help Missouri farmers and agribusinesses increase sales of their products. The program markets products through a variety of marketing channels, including retail, wholesale, foodservice, restaurants, institutions and direct-to-consumer marketing. The program also promotes agritourism and farmers' markets. We have over 200 members in 2005. The program shifted to a paid membership structure in 2004 in order to provide a steady income stream into the program (as per Section 261.235) and allow for easier tracking of program participants from year to year. The program, through the assistance of the Advisory Commission for the Marketing of Missouri Agricultural Products, has developed an aggressive marketing plan to increase consumer awareness of Missouri products and increase sales of Missouri products through a variety of marketing channels. Through our partnerships with retailers in promoting Missouri products through grocery ad circulars and in-store promotions, we have been able to increase sales of Missouri products. The program website, www.agrimissouri.com, was launched November 2004 to promote Missouri products and help link buyers and sellers. The Buyer's Guide portion of the website averages 700 hits a month.</p>

This program, established in 1985, increases consumer awareness of products that are grown, raised and processed in Missouri in order to help Missouri farmers and agribusinesses increase sales of their products. The program markets products through a variety of marketing channels, including retail, wholesale, foodservice, restaurants, institutions and direct-to-consumer marketing. The program also promotes agritourism and farmers' markets. We have over 200 members in 2005. The program shifted to a paid membership structure in 2004 in order to provide a steady income stream into the program (as per Section 261.235) and allow for easier tracking of program participants from year to year.

The program, through the assistance of the Advisory Commission for the Marketing of Missouri Agricultural Products, has developed an aggressive marketing plan to increase consumer awareness of Missouri products and increase sales of Missouri products through a variety of marketing channels. Through our partnerships with retailers in promoting Missouri products through grocery ad circulars and in-store promotions, we have been able to increase sales of Missouri products.

The program website, www.agrimissouri.com, was launched November 2004 to promote Missouri products and help link buyers and sellers. The Buyer's Guide portion of the website averages 700 hits a month.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

2. CORE DESCRIPTION									
<p>The Marketing Development Fund was created through legislation, in 1983 (RSMo 261.035). Moneys deposited into the fund are to be expended for agricultural marketing development purposes. Miscellaneous receipts are deposited into the fund for market development activities such as: participation in domestic and international trade shows, registrations for the Missouri Youth Livestock Grading and Judging Contest and Workshop, and registrations for educational and promotional seminars. The Fund is also used for various other department activities including the Governor's Conference on Agriculture.</p> <p>In addition, RSMo 311 states "...there shall be paid to and collected by the director of revenue for the privilege of selling wine, an additional charge of twelve cents per gallon or fraction thereof...The revenue derived from the additional charge imposed shall be deposited by the State Treasurer to the credit of a separate account in the marketing development fund (RSMo 261.035). Monies credited to the fund develop programs for growing, selling, and marketing grapes and grape products grown in Missouri, including all necessary funding for employment of experts in the fields of viticulture and enology as deemed necessary, and programs aimed at improving marketing of all varieties of grapes grown in Missouri; and shall be appropriated and used for no other purpose." The law was last amended in 2002 increasing the tax from 6 cents per gallon to 12 cents per gallon. The additional six cents must be used in funding research and advisement of grapes and grape products.</p>

SB 355 (2005) created the Wine and Grape Board and the Wine and Grape Fund. Section 262.850 states "the board may employ technical experts and such other officers, agents and employees as they deem necessary, and may fix their qualifications, duties and compensation." In addition, wine and grape revenues currently deposited into the Marketing Development Fund will be credited to the Missouri Wine and Grape fund beginning July 1, 2006. This request includes funding to meet the Board's personal services needs and to begin transferring program funding from the Marketing Development fund to the Missouri Wine and Grape fund.

Wine and Grape Program	
SB 355 - Wine and Grape Board	

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Grape and Wine program is funded by a twelve cents per gallon charge on all wine sold in Missouri. Until June 30, 2006, this revenue is deposited into the Market Development Fund to be used for research and marketing for the Missouri grape and wine industry. Beginning July 1, 2006, the revenues will be deposited into the Missouri Wine and Grape Fund. In FY 2007, the following appropriations are needed:

To meet Board personnel needs:

<u>Current Position</u>	<u>Current Salary</u>	<u>New Position</u>	<u>New Salary</u>	<u>\$ Difference</u>
Market Development Coordinator	\$43,584	Executive Director	\$76,332	\$32,748

	\$104,124		\$149,184	\$45,060

For research and advisement \$412,113 E&E is requested. The core EYE appropriation from the Marketing Development fund will be reduced by the same amount. Therefore, there is no net increase in funding for this portion of the request.

2. CORE DESCRIPTION									
The Missouri Agricultural and Small Business Development Authority (MASBDA) was created by the Missouri General Assembly in 1981 as an independent political and corporate body of the state of Missouri (RSMo 348). MASBDA's purpose is to promote the development of agriculture and small business and to reduce, control, and prevent environmental damage in Missouri by providing additional sources of financing at interest rates that are below conventional rates. The authority accomplishes this by issuing agricultural development bonds, tax-exempt small issue bonds, guarantees on loans to livestock producers, direct loans for animal waste treatment systems. Additionally, the authority administers a grant program, tax credit programs, and loan guarantees related to new generation cooperatives and value-added agricultural projects. MASBDA provides fiscal management of a rural development finance program, the Agriculture Development Fund (ADF). MASBDA also administers two of the programs funded through ADF -- the Crop and Livestock Loan Guaranty Program and the Alternative Loan Program.									
3. PROGRAM LISTING (list programs included in this core funding)

2. CORE DESCRIPTION

Livestock and poultry account for \$2.29 billion of the states agriculture economy. Under the direction of the state veterinarian, the division administers numerous disease control/herd certification programs under the Diseased Animal Law, including brucellosis, pseudo rabies, tuberculosis, EIA, Pullorum-Typhoid. These programs are designed to control and eradicate the most economically damaging diseases.

The division coordinates state and federal resources in prevention, preparedness, response, and recovery during an animal health emergency. Constant surveillance by this division for livestock and poultry diseases and other possible emerging pathogens prevent outbreaks of infectious animal diseases that could magnify those losses by jeopardizing the sale and export of Missouri animal and animals products. In some cases, human health may also be directly threatened because many diseases (i.e. Tuberculosis, Brucellosis, Anthrax, Rabies, some forms of influenza and food-borne disease organisms) can also be transmitted directly from animals to humans, increasing consumer concern about food safety and quality assurance.

The Division of Animal Health administers the National Poultry Inspection Program (NPIP) through a Memorandum of Understanding with USDA. The NPIP is an industry/state/federal program designed to control hatchery disseminated diseases and provide basic guidelines for disease control and certification of poultry breeding flocks. Diseases included in the NPIP are Pullorum-typhoid, Salmonella enteritidis, Mycoplasmosis, and Avian Influenza.

The Missouri Meat and Poultry Inspection Program (MMPIP) provides consumers with confidence in the safety, wholesomeness of Missouri processed meat and poultry products. The MMPIP provides inspection services to official state establishments and conducts frequent sanitation reviews of custom exempt slaughter and meat processing facilities. Warehouses, wholesale distribution, rendering and retail product safety are monitored by MMPIP compliance officers.

The companion animal industry is a large but unmeasured source of revenue for Missouri. To protect and promote this industry, the Animal Care Facility Act Program (ACFA) ensures that the companion animal population of Missouri receives adequate care, shelter, health care and proper socialization which benefits both the companion animals and the pet industry of the state.

The requested flexibility will most likely be used for essential Expense and Equipment expenditures (e.g. maintenance, repair, or replacement of equipment; supply purchases; etc.) that would impair the department's operation if not made.

PROGRAM DESCRIPTION

Department - Agriculture

Program Name - Animal Care Facility Act Program

Program is found in the following core budget(s): Animal Health

1. What does this program do?

The health and well being of companion animals raised by commercial breeders in Missouri is the primary concern of the Animal Care Facilities Act Program (ACFA). The commercial pet industry is a large but unmeasured source of revenue for Missouri. To protect and promote this industry, the ACFA program enforces regulations for adequate food, housing, health and veterinary care. The commercial pet industry has a large economic impact in Missouri. Income is derived from retail sales of dogs, wholesale transactions through brokers and associated transport expenses. In addition, sales of production equipment food and veterinary supplies add to the economy. The ACFA program is staffed with one program veterinarian/acting coordinator, one administrative office support assistant and eleven animal health officers. This program license and inspect animal shelters, boarding kennels, carriers, commercial breeders, commercial kennels, contract kennels, dealer/brokers, exhibitors, rescues, hobby/show licensed, intermediate handlers, pet shops, pet sitters and dog pounds. The staff also responds to public inquires where the well-being of the animals in in question, assist in the research and documentation of cases involving administrative hearings and work with USDA Animal Care field inspectors and their regulatory enforcement.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

1. What does this program do?

Under the direction of the state veterinarian, the division has the responsibility to aid and assist with control and eradication of livestock diseases to insure optimum health of Missouri's livestock and poultry industry. The division works with USDA for disease control, surveillance and eradication of diseases that affect animals and humans. This responsibility is carried out through various subprograms i.e. voluntary disease control/eradication programs, livestock marketing licensing, registration of livestock dealers, rendering plant licensing, dead animal surveillance and livestock brand registration.

The division administers the National Poultry Improvement Plan (NPIP). The NPIP is an industry/state/federal program designed to control hatchery disseminated diseases and provide basic guidelines for disease control and certification of poultry breeding flocks. Certification of breeding flocks and ultimately the state itself through the NPIP allows uninterrupted interstate and international movement of poultry and poultry products.

The division relies on its two (2) diagnostic laboratories located in Jefferson City and Springfield to perform the diagnostic tests needed to maintain Missouri's disease free statuses. The quickness that tests are performed give the division an indication as to what diseases are jeopardizing the value of the state's livestock and poultry population. Tests are performed free of charge for those disease that fall under a state/federal cooperative eradication program. The laboratories perform and bill producers for testing other livestock/poultry/small animal samples for diseases that are a concern to the producers or that have a negative impact on the industry. Fees charged for testing services are deposited in the "Laboratory Fee Fund" to be used to maintain and improve the level of services offered at each laboratories.

PROGRAM DESCRIPTION

Department: Agriculture

Program Name: Homeland Security / Agri-Terrorism

Program is found in the following core budget(s): Animal Health

1. What does this program do?

With the advent of continuing and growing terrorist threats and attacks the need to expand our defenses significantly also grows. The food supply for the American populace requires this kind of attention. It is extremely vulnerable. Part of this responsibility falls to the Animal Health Division of MDA. The improvement and expansion of the program to achieve optimal protection for our state's livestock and agricultural commodities is incumbent on our state leadership. The program will provide training for MDA personnel, practicing veterinarians, other state agencies i.e.(SEMA, Health, MODOT,etc), first responder organizations, as well as trade organizations of the agriculture industry. The program will advance the planning and protocol for incidents that are either a terrorist or natural occurrence which could be devastating to one or more of the agriculture areas thus threaten the public food supply. Given the world situation, this will not be a short-lived program. It will be perpetual and deserves continuous development. Ensuring the safety of our nation's food supply is a top priority for the President of the United States.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 267, RSMo - State Veterinarian; Diseased Animals

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

Yes - Presidential White House Directive #9, the National Response Plan and the National Infrastructure Protection Plan. Each of these plans call for the development of agri-terrorism response plans, equipment and trained personnel. A recent collaboration of USDA, FDA, FBI and DHS called "The Strategic Partnership Program Agriterrorism (SPPA) initiative will visit Missouri next year to review our progress.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

PROGRAM DESCRIPTION

Department - Agriculture

Program Name - State Meat and Poultry Inspection

Program is found in the following core budget's): Animal Health

1. What does this program do?

The Missouri Meat and Poultry Inspection Program (MMPIP) is responsible for ensuring that state inspected meat and poultry products are safe, wholesome, and correctly labeled. The program provides inspection services to official state establishments and conducts frequent sanitation reviews of custom exempt establishments throughout the state. By providing inspection to small and very small meat and poultry facilities throughout the state, MMPIP provides a tool for livestock producers and meat processors to add value and capture additional profits from meat and poultry products.

The MMPIP functions on an "equal to" status with the Food Safety Inspection Service (FSIS) and adheres to policy outlined by that agency. The Missouri Meat and Poultry Inspection Program has adopted and enforces all regulations set forth in the Federal Meat Inspection Act, Poultry Products Inspection Act, and Title 9 Part 200 to End of the Code of Federal Regulations.

To maintain "equal to" status, MMPIP provides laboratory services at the Veterinary Diagnostic Laboratory, Springfield, Missouri. All microbiological and chemical testing conducted at the lab follows the approved method of the Association of Analytical Chemists (AOAC) and provides testing services for all program generated sampling. The lab also provides services to federal and state meat and poultry establishments who require sampling results to verify sanitary conditions and product safety.

In addition to inspection services, MMPIP provides compliance officers, who cover the state by monitoring warehouses, wholesale distribution, rendering and retail product safety.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Federal Meat Inspection Act - Title 21 Food and Drugs, Chapter 12 Meat Inspection Code of Federal Regulations, Title 9; Part 200 to end
Chapter 265, RSMo
Food Safety and Inspection Service Cooperative Agreement No. 1237-A-470

3. Are there federal matching requirements? If yes, please explain.

Yes - The Missouri Meat and Poultry Inspection Program operates under a cooperative agreement with FSIS. Under this agreement, a state program must enforce requirements "at least equal to" those imposed under the Federal Meat Inspection Act and the Poultry Products Inspection Act. FSIS provides up to 50% of the state's operating funds, as well as training and other assistance. FSIS provides guidance to the State Meat and Poultry Inspection programs under these agreements.

4. Is this a federally mandated program? If yes, please explain.

No.

QSA is a premier value-adding program that has allowed Missouri to be the first state in the nation to receive USDA's audit approval for source and age verification of cattle. Missouri is the second largest cow-calf producer in the nation. This program will be a revenue generator for the state by adding \$10 - \$50 per head for cattle that meet QSA standards for export. The U.S. Department of Agriculture (USDA) will perform onsite audits of the program twice a year (cost of audits estimated at \$15,000). After successful completion of both the internal audit performed by IMI Global and audits by USDA, the state of Missouri will have an umbrella QSA program for its producers. USDA will ultimately list all Missouri programs and independent producers offering age and source verified cattle.

IMIGlobal, Inc. will develop a Quality Control Manual (cost is \$30,000) that will outline the entire Quality System Assessment Program (QSA). Included will be an overall master plan and location specific documents. Location specific documents will include procedures for all locations that handle qualified cattle in the program. Standard Operating Procedures and supporting documents will be developed for the statewide program. These will include complete auditing procedures, complete and standardized producer evaluation procedures and minimal standards for all participating programs. After the development of these documents, IMI will conduct an initial internal audit, the United States Department of Agriculture (USDA) will perform onsite audits of the program twice a year (cost of audits estimated at \$15,000) .

2. CORE DESCRIPTION

This request furnishes accredited veterinarians with official calfhood vaccination tags that serve as a form of official identification for vaccinated animals. Every time an animal is tested, sold through a livestock market, etc., this eartag will be recorded as the official identification. These tags provide efficient and timely test information that will help the brucellosis epidemiologist to make a determination on an animal or herd disposition based upon test history.

To ensure a uniformed identification method through out the state, the Division of Animal Health must be responsible for the issuance and record keeping of these permanent identification tags. Continued maintenance of the distribution of these tags is a significant element to maintain Brucellosis-Free classification and will serve as a foundation record keeping system for officially identified cattle that are tested for any other disease of those participating in a voluntary quality assurance or disease certification program.

2. CORE DESCRIPTION

The Grain Regulatory Services Program is a statutorily mandated program which provides regulatory oversight to the grain warehouse and grain merchandising industry. This oversight ensures the 50,000 Missouri grain farmers of a financially stable grain marketing system where they can both store and merchandise their grain production. In addition, the GRS program conducts commodity checkoff audits to verify collection of assessments and administers the Missouri Agricultural Mediation Program (MAMP) which provides dispute resolution services to Missouri farmers who utilize USDA programs. The MAMP is funded by a grant provided through the Farm Service Agency of USDA.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 35660C BUDGET UNIT NAME: Grain Regulatory Services		DEPARTMENT: Agriculture DIVISION: Grain Regulatory Services	
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.			
DEPARTMENT REQUEST		GOVERNOR RECOMMENDATION	
We are requesting flexibility in the Grain Regulatory Services' General Revenue (GR) Personal Service and/or Expense and Equipment appropriation, provided that not more than twenty percent (20%) flexibility is allowed between each of these appropriations. This flexibility is needed to maximize the efficiency of available financial resources and to meet the department's statutory responsibilities.		The Governor recommended twenty percent (20%) flexibility between Personal Services and Expense & Equipment for GR funding.	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount			
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
\$17,500	The Grain Regulatory Services' program believes that it may need to flex up to 20% of its FY 2006 Personal Services and/or Expense and Equipment appropriation.	The Grain Regulatory Services' program believes that it may need to flex up to 20% of its FY 2007 Personal Services and/or Expense and Equipment appropriation.	
3. Was flexibility approved in the Prior Year Budget or the Current Year Budget? If so, how was the flexibility used during those years?			
PRIOR YEAR EXPLAIN ACTUAL USE		CURRENT YEAR EXPLAIN PLANNED USE	
\$17,500 was flexed to EE to replace a high-mileage vehicle, pay for outstanding motor fuel bills, and replace computer equipment for field auditors.		The program has experienced significant funding reductions in recent fiscal years. The requested flexibility will most likely be used for essential Expense and Equipment expenditures (e.g. maintenance, repair, or replacement of equipment; supply purchases; etc.) that would impair the department's operation if not made.

2. CORE DESCRIPTION

The Grain Inspection Services Program provides unbiased third-party inspections to determine the quantity, quality, and condition of grain. Inspections are not mandatory except for grain destined for export. Grain producers, buyers, sellers, shippers, and other interested parties request inspection services to facilitate the trading and marketing of grain. Inspection services are provided state-wide through regional inspection offices located in Kansas City, Laddonia, Marshall, New Madrid, and St. Joseph. The program is entirely self-supporting as it charges fees for performing inspections and all costs are paid from revenue earned.

The core request of \$1,908,709 provides sufficient spending authority to operate regional inspection offices and provide "official" grain inspection services throughout Missouri.

PROGRAM DESCRIPTION

Department: Agriculture

Program: Commodity Merchandising Administration

Program is found in the following core budget(s): Commodity Merchandising

1. What does this program do?

State law along with state producer check off referendums have established merchandising councils and implemented check off assessment programs for nine agricultural commodities. The Commodity Merchandising Administration Program (CMAP) currently provides monthly check off collection, refund, and distribution services for all nine programs. Each month CMAP:

1. Receives check off assessment reports and payments from up to 1,000 collection points and individual producers.
2. Processes check off refunds to producers requesting refunds in applicable programs.
3. Distributes net check off collections (collections less refunds) to designated state and national commodity merchandising councils and organizations.

CMAP collection and distribution services are mandated for 3 of the 9 check off programs. CMAP is authorized to provide collection and distribution services for the other 6 check off programs if the commodity merchandising councils request those services. Centralized services minimizes administrative costs by eliminating the need for each merchandising council to establish individual systems to collect and distribute check off fees.

The CMAP is self-supporting. All operating costs, refunds, and distributions are paid from commodity check off fees or funds received from commodity merchandising councils.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 265.180, 275.650, 275.454, and 275.466 RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

PROGRAM DESCRIPTION

Department: Agriculture

Program: Commodity Merchandising Administration

Program is found in the following core budget(s): Commodity Merchandising

6. What are the sources of the "Other " funds?

Commodity Council Merchandising Fund (0406); Aquaculture Marketing Fund (0573); Apple Merchandising Fund (0615); Missouri Wine Marketing and Research Fund (0855)

7a. Provide an effectiveness measure.

Compare the amount of Missouri rice check off fees collected to potential check off collections. Potential collections are equal to 2 cents per bushel on the annual Missouri rice production as reported by the Missouri Agricultural Statistics Service. Potential collections for FY06-08 are based on the average Missouri rice production for crop years 2002 through 2004.

PROGRAM DESCRIPTION

Department: Agriculture

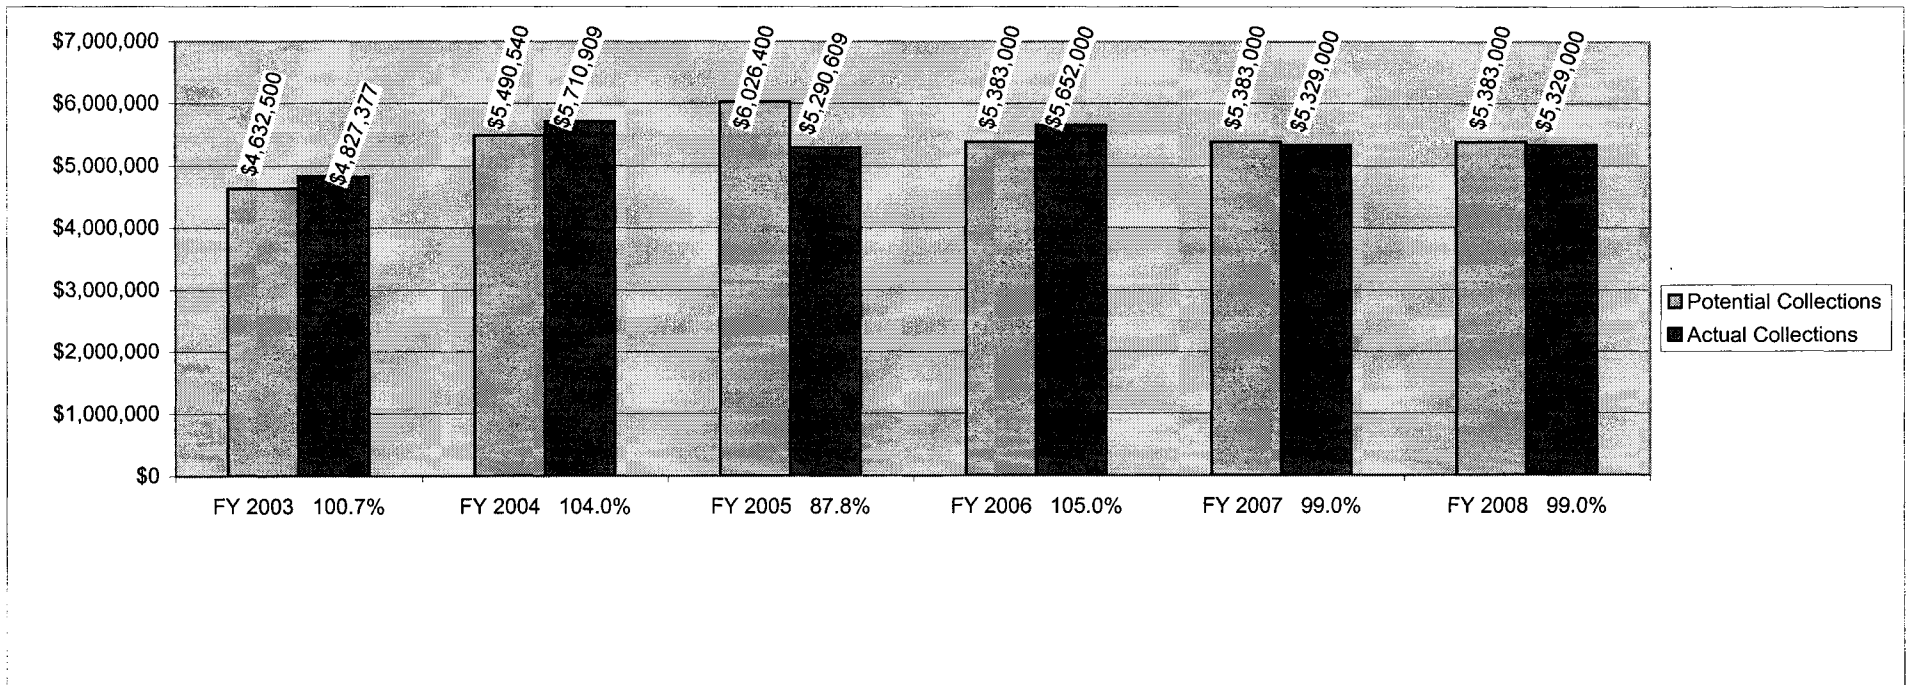

Program: Commodity Merchandising Administration

Program is found in the following core budget(s): Commodity Merchandising

7a. Provide an effectiveness measure (continued).

Compare the amount of Missouri soybean check off fees collected to potential check off collections. Potential collections are 0.5% of the value of Missouri's annual soybean production as reported by the Missouri Agricultural Statistics Service. Potential collections for FY06-08 are 0.5% the average value of Missouri soybean production for crop years 2002 through 2004.

Carry over stocks from the record 223 million bushel soybean crop in 2004 is reflected in the 87.8% checkoff collection rate in FY05. Some of these carryover stocks will be sold this fiscal year and is reflected in our projected collection rate of 105% in FY06.

Program: Commodity Merchandising Administration

Program is found in the following core budget(s): Commodity Merchandising

7b. Provide an efficiency measure.

Measure total program administrative costs (personal service, expense & equipment, fringe benefits, and administrative overhead) to total check off collections. FY06-08 administrative costs reflect 5% annual increases. The FY06-08 collections amount is the 3 year average from FY 03-05.

7c. Provide the number of clients/individuals served, if applicable.

The CMAP provides check off collection and distribution services for nine merchandising councils. More than 1,000 businesses and individuals serve as collection points and remit check off fees to CMAP.

7d. Provide a customer satisfaction measure, if available.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 35710C BUDGET UNIT NAME: Plant Industries		DEPARTMENT: Agriculture DIVISION: Plant Industries	
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.			
DEPARTMENT REQUEST		GOVERNOR RECOMMENDATION	
We are requesting flexibility in the Plant Industries General Revenue (GR) Personal Service and/or Expense and Equipment appropriation, provided that not more than twenty percent (20%) flexibility is allowed between each of these appropriations. This flexibility is needed to maximize the efficiency of available financial resources and to meet the department's statutory responsibilities.		The Governor recommended twenty percent (20%) flexibility between Personal Services and Expense & Equipment for GR funding.	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount			
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
\$19,000	The Plant Industries division believes that it may need to flex up to 20% of its FY 2006 Personal Services and/or Expense and Equipment appropriation.	The Plant Industries division believes that it may need to flex up to 20% of its FY 2007 Personal Services and/or Expense and Equipment appropriation.	
3. Was flexibility approved in the Prior Year Budget or the Current Year Budget? If so, how was the flexibility used during those years?			
PRIOR YEAR EXPLAIN ACTUAL USE		CURRENT YEAR EXPLAIN PLANNED USE	
\$19,000 PS was flexed to EE to maintain and repair essential equipment in the feed laboratory.		The division has experienced significant funding reductions in recent fiscal years. The requested flexibility will most likely be used for essential Expense and Equipment expenditures (e.g. maintenance, repair, or replacement of equipment; supply purchases; etc.) that would impair the department's operation if not made.

PROGRAM DESCRIPTION

Department: Agriculture

Program Name: Feed & Seed

Program is found in the following core budget(s): Plant Industries

1. What does this program do?

The Bureau of Feed and Seed regulates the feed and seed industries through the administration of the Missouri Commercial Feed Law and the Missouri Seed Law. These laws provide food safety and consumer protection. The programs are administered by four inspectors working from their homes in assigned areas covering the entire state. The feed and seed testing laboratories and administrative offices are located in Jefferson City, Mo. The Feed Lab receives approximately 5,000 samples each year to analyze. These samples consist of official samples tested against label claims. Additional samples are also analyzed as service samples, survey samples and custom-mix samples. The feed program regulates all animal feed in Missouri including pet food (cat and dog) and specialty pet food (tank and cage). The seed program regulates agricultural, lawn, and vegetable seed. The Seed Lab receives approximately 3,000 samples that are analyzed for purity, noxious weed seed, and germination. The two programs are distinct programs and are offered by no other department in the state or at the federal level. The feed program plays an important role in food safety in cooperation with the U.S. Food and Drug Administration in the administration of the BSE Prevention Program in Missouri. The Bureau inspects, reports, monitors, and investigates the compliance of facilities and individuals manufacturing, distributing, or using products containing prohibited mammalian protein to ensure these proteins are not fed to ruminant animals. The Bureau also works in cooperation with USDA, AMS in the interstate shipment of seed to ensure that seed shipped into our state meets the requirements of our seed law. We partner with federal agencies in several other activities including our annual wheat and corn sampling to check for aflatoxin and vomitoxin, testing feed products for the presence of prohibited proteins, and supplying seed samples to the Federal Seed Lab in Gastonia, N.C. in order to check for interstate shipping violations.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The Missouri Commercial Feed Law RSMo 2000 sections 266.152 to 266.220 and the Missouri Seed Law RSMo 2000 sections 266.011-266.111.

3. Are there federal matching requirements? If yes, please explain.

Program: Fresh Fruit & Vegetable Program

Program is found in the following core budget(s): Plant Industries

1. What does this program do?

The Fresh Fruit and Vegetable Inspection Program assures buyers and sellers, of this highly perishable product, that commodities are graded and packed to conform to established USDA standards which allows for an orderly marketing system. To facilitate these needs, one state program administrator is based in Monett, Missouri and covers south Missouri, northwest Arkansas, northeast Oklahoma and southeast Kansas. This person does all terminal market inspections. These are inspections requested by Missouri produce wholesalers who feel the produce does not meet the grade requested/ordered. He is assisted by part-time state inspectors licensed by the U.S. Department of Agriculture, Agricultural Marketing Service (USDA, AMS) to help perform shipping point inspections at the point of origin of Missouri-grown produce to determine that the correct quality and grade of produce is packed and shipped. Federal inspectors are stationed in Kansas City and St. Louis, Missouri. Terminal market inspections confirm quality and grade of produce received by Missouri wholesale purchasers for distribution to retail outlets. Both types of inspections are provided upon request and at the expense of growers, shippers, or wholesale purchasers. The program is a State/USDA, AMS cooperative effort. Federal cooperation assures national consistency of requirements with similar programs throughout all 50 states.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State: RSMO 265.065 Federal: 7 U.S.C. 1621-1627

3. Are there federal matching requirements? If yes, please explain.

Under the USDA/AMS Cooperative Agreement, the state agency collects fees established by USDA/AMS for inspections performed by the state. In turn, the state agency reimburses USDA/AMS a percentage of the fees collected. Reimbursement rates are: Terminal Market Rates - 6%. Shipping Point Inspections - 7.2%.

4. Is this a federally mandated program? If yes, please explain.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

1. What does this program do?

Integrated pest management (IPM) strategies anticipate pest problems and prevent them from reaching economically damaging levels. The goal of IPM Program is to assist Missouri producers to reduce dependence on pesticides through increased use of biological control agents, pest-resistant plant varieties and adopting improved cultural management practices. The IPM Program cooperates with several different agencies, receiving grant funding for IPM in Missouri schools and IPM in the greenhouse and nursery industry. Cooperative efforts extend to a grant funded Hypoxia education and stewardship program for producers with an emphasis in nutrient managements practices. For administrative purposes the Boll Weevil Eradication Program is housed within the IPM Program. The IPM Program is responsible for assessment collections and regulatory oversight.

The IPM Program also provides administrative oversight of Missouri Sustainable Agriculture Demonstration Award Program. While this program is not funded for new grants in FY 2006, previously awarded grants are continuing through 2008. This IPM program provides fiscal updates and provides grant information. The IPM program provides state agency representation on the administrative council for the federal sustainable agriculture program for the North Central Region.

Program: Pesticide Control

Program is found in the following core budget(s): Plant Industries

1. What does this program do?

The Missouri Pesticide program is responsible for regulating the distribution, sale and use of all pesticides in the state of Missouri. The overall goal of the pesticide program in meeting both state and federal statutory responsibilities is to prevent unreasonable adverse effects of pesticide use on the health of the citizens of Missouri and the environment while helping assure the availability of pesticides needed to maintain our quality of life. The use of pesticides is an integral part of the quality and quantity of food and fiber produced for the world; however, pesticides have a wide variety of other uses such as: control of pests that cause structural damage to homes and other buildings; protection of aesthetic value provided by ornamental plants and turf; control of pests which may create health concerns; and the prevention of crop and forest damage by invasive species.

The Bureau of Pesticide Control has four main program responsibilities: applicator certification; pesticide technician licensing; federal initiatives (water quality, worker protection and endangered species); and, enforcement. Field activities are performed by employees working from their homes with their main assignment for a specific region of the state. The Bureau has averaged 10,008 investigations over the past three fiscal years including: pesticides at the retail, wholesale and producer levels; applicator use records and dealer sales records; certification credentials; applicator training records; direct supervision requirements; inspection of the use of pesticides; and, the alleged misuse of pesticides. The Bureau of Pesticide Control continues to maintain a Performance Partnership Grant with the EPA and receives federal funds in support of the program.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The Missouri Pesticide Use Act, Sections 281.005 to 281.115, RSMo 2000. The Missouri Pesticide Registration Act, Sections 281.210 to 281.310. The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), Sec. 24. [136v] AUTHORITY OF STATES.

3. Are there federal matching requirements? If yes, please explain.

Approximately 82% of federal grant program funds received require a 15% match of state funds. Approximately 18% of federal grant program funds received require a 50% match of state funds.

4. Is this a federally mandated program? If yes, please explain.

No, however, if Missouri lost program primacy, the federal government (through the Environmental Protection Agency) would pursue program management.

The Plant Pest Control Bureau works to: 1) to prevent the introduction and spread of harmful plant pests within the state of Missouri and to areas outside our borders; 2) provides plant regulatory services (i.e., inspections, certifications, etc.) necessary for the movement of agricultural products in national and international markets; and 3) provides consumer/industry protection and education in areas of pest prevention and control. These goals are met through the annual inspection of all nursery stock grown in the state, inspection of some stock entering the state from outside sources, various pest survey activities, and export certification as requested and needed. Inspection and certification activities allow Missouri agricultural plant products to move in national and international markets.

2. CORE DESCRIPTION

The Gypsy Moth program operates under the direction of the State Entomologist (Program Administrator) in the Bureau of Plant Pest Control within the Division of Plant Industries. A comprehensive statewide survey is implemented in cooperation with the Missouri Department of Conservation and USDA-APHIS-PPQ. The survey is aimed at detecting a population of gypsy moth in the state before it reaches 640 acres in size. This damaging insect pest poses a serious threat to the natural resources in the state as well as to tourism. It can also pose a human health threat through the allergic reaction to the potential huge numbers of insects and their irritating hairs.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The National Cotton Council estimates that the boll weevil has caused a \$14 billion loss in yield to the U.S. cotton industry since the pest's arrival in 1892. In addition to yield reductions, Missouri cotton growers had been spending over \$7 million annually to control the boll weevil. To eradicate this costly pest, Missouri's cotton growers approved a referendum in 2001 that established a \$12.50 per acre assessment on all cotton acreage in the state.

The first five years of the boll weevil eradication effort have been very successful. As the weevil and its damages have been reduced by the cotton growers' \$23 million investment in eradication, the state's cotton industry has grown with increased cotton acreage and record yields. In 2005, Missouri's cotton acreage exceeded 400,000 acres for the first time since 1995. The additional cotton acreage has also led to new and expanded gin capacity in the state. Unfortunately, these gains are now threatened by the spread of weevil through hurricane related weather patterns and increasing program costs from higher fuel prices. State financial support is needed to offset these increased eradication costs and continue the success of the eradication effort.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The amount requested is equal to \$1.00 per acre of estimated Missouri cotton production in 2006 (i.e. 483,000 acres * \$1.00 = \$483,000).

2. CORE DESCRIPTION

The Weights and Measures Division encourages economic and agricultural growth while protecting the public through regular inspection and surveillance programs. The division is charged with the responsibility of assuring that commercial weighing and measuring devices are accurate, appropriate for their intended use, and installed and maintained properly by their owner or user. The division provides surveillance of weighing and measuring practices to prevent unfair or deceptive dealing by weight or measure in any commodity or service advertised, sold or purchased in the state. The division provides precision calibration and metrology certification services to users of physical standards and weighing and measuring equipment. The division tests motor fuels to insure they meet advertised grade and octane specifications. Premises utilized for the sale of fuels are inspected to assure the public is safe from fire and explosion.

The core request will continue to provide funding for inspection and surveillance programs.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 35801C BUDGET UNIT NAME: Weights & Measures		DEPARTMENT: Agriculture DIVISION: Weights & Measures	
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.			
DEPARTMENT REQUEST		GOVERNOR RECOMMENDATION	
We are requesting flexibility in the Weights and Measures' General Revenue (GR) Personal Service and/or Expense and Equipment appropriation, provided that not more than twenty percent (20%) flexibility is allowed between each of these appropriations. This flexibility is needed to maximize the efficiency of available financial resources and to meet the department's statutory responsibilities.		The Governor recommended twenty percent (20%) flexibility between Personal Services and Expense & Equipment for GR funding.	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount			
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
\$23,000	The Weights and Measures division believes that it may need to flex up to 20% of its FY 2006 Personal Services and/or Expense and Equipment appropriation.	The Weights and Measures division believes that it may need to flex up to 20% of its FY 2007 Personal Services and/or Expense and Equipment appropriation.	
3. Was flexibility approved in the Prior Year Budget or the Current Year Budget? If so, how was the flexibility used during those years?			
PRIOR YEAR EXPLAIN ACTUAL USE		CURRENT YEAR EXPLAIN PLANNED USE	
\$23,000 PS was flexed to EE to pay for large scale truck repairs and replacement tires as well as for end-of-year outstanding obligations including motor fuel, replacement tires, and vehicle repairs.		The division has experienced significant funding reductions in recent fiscal years. The requested flexibility will most likely be used for essential Expense and Equipment expenditures (e.g. maintenance, repair, or replacement of equipment; supply purchases; etc.) that would impair the department's operation if not made.

PROGRAM DESCRIPTION

Department: Agriculture

Program: Fuel Quality

Program is found in the following core budget(s): Weights and Measures

1. What does this program do?

The Fuel Quality Program is responsible for assuring that all motor fuels and other fuels meet minimum quality specifications. Through a vigorous program of inspection, sampling, testing, and enforcement, the program protects Missouri consumers and sellers of petroleum fuels and products. This program is the only one in the United States that tests petroleum products with a processing time for most samples of less than 24 hours. This ensures that fuel that doesn't meet specifications is corrected or removed before it is sold, protecting Missouri's consumers. Benefits of the program are twofold: First, economic benefits are derived from consumers receiving quality products and services in the areas of fuel quality, vehicle efficiency and vehicle maintenance. Second, by monitoring compliance with the air pollution control program and fuel quality specifications, the program promotes better air quality and more efficient fuel use. The program has recently expanded to include testing alternative fuels such as E85 Fuel Ethanol and Biodiesel blends to ensure the quality and consumer acceptance of these fuels. Missouri drivers spend approximately one and one half cents for every 100 gallons to fund the program and insure fuel quality in the state.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

RSMo Chapter 414.012 -414.152

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Program: Grain Moisture Meter Inspection

Program is found in the following core budget(s): Weights and Measures

1. What does this program do?

The Grain Moisture Meter Program assures the accuracy of commercial grain moisture-measuring devices used to buy or sell grain commodities in the state. The Missouri Agricultural Statistical Services estimates the value of grains produced in Missouri to be over \$1.3 billion dollars annually. Grain moisture-measuring devices are instrumental in determining the price of grain sold in Missouri. Each January, this program registers commercial moisture-measuring devices used in the state. These devices are tested annually utilizing grain samples prepared using a USDA/GIPSA-approved method for determining moisture content. Grain test scales, weight per bushel apparatus, thermometers and calibration charts associated with the moisture meters are also examined during the inspection process.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Program: Grain Moisture Meter Inspection

Program is found in the following core budget(s): Weights and Measures

7a. Provide an effectiveness measure.

Testing of commercial moisture meters give the producer and the elevator or grain dealer the assurance of equality in the transaction. Accuracy in moisture is one of the grain grading constituents that has the greatest effect on the price of the commodity.

7b. Provide an efficiency measure.

Two field inspectors cover the entire state and test all the meters on an annual basis through FY 2003. In FY 2004, one inspector position was lost due to retirement and the reduction in the program's operations budget has not permitted us to replace this person. In addition to annual meter inspections, inspectors obtain new crop grain during the harvest seasons to make new samples for the next years' testing. They travel to the laboratory each month to pick up new samples to use, and maintain a quality assurance program of daily adjustments on those samples by running comparisons in meters they carry with them. In addition to the loss of one inspector, fescue meter inspections were discontinued in FY 03 due to lack of an approved test method for these meters. This resulted in a decrease of 185 meter inspections each year.

Program: Metrology Laboratory

Program is found in the following core budget(s): Weights and Measures

1. What does this program do?

The Metrology Laboratory is the keeper of the State Standards of mass, length, and volume. These precision standards are a link in the chain of traceability from the United States Standards at the National Institute of Standards and Technology (NIST) and the commerce of each weighed or measured commodity bought or sold here in Missouri. The laboratory provides calibrations for the Weights and Measures Division's test equipment used on all device testing in the state and the scale and pump/meter sales and service agencies that install and service those devices. The Laboratory also provides that calibration service to any private manufacturing company in the state that have need of certified standards in their quality control plan. The Metrology laboratory is recognized as a participant in the National Measurement System which insures high quality calibrations with traceability.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

7a. Provide an effectiveness measure.

The Metrology Laboratory certifies some 5400 pieces of equipment annually with two people doing the work. This ranks the Missouri laboratory in the upper one half of all state laboratories based on workload surveys conducted by the NIST state laboratory programs manager. Year to year fluctuation of quantity in pieces of weights calibrated are due to the two year expiration on industry equipment. Each year the quantity will vary from odd years to even years between 5500-6500 pieces respectively.

The Petroleum/Propane/Anhydrous Ammonia program provides a variety of services that ensure consumer protection and public safety. Under this program , petroleum and propane fuel dispensers located at service stations, marinas, airports, bulk plants, pipeline and barge terminals and other retail/wholesale locations are inspected and tested for accuracy. This also includes propane/petroleum fuel delivery truck meters. To protect the public from fire, explosion and injury, safety inspections are performed at service stations, marinas, airports, terminals, bulk storage plants, schools, nursing homes and other public institutions. Safety inspections also include propane motor fuel systems on school buses, fuel delivery trucks, bulk tanks and aboveground petroleum fuel storage tanks. In addition, this program has an emergency response team that responds to emergencies involving petroleum, propane and anhydrous ammonia products. Primary standards of mass were provided to each state through a grant by the U.S. Department of Commerce to promote uniform measurements across the country. States are required to return the standards to the National Institute of Standards and Technology (NIST) every 10 years for recalibration. Failure to recertify Missouri's primary standards will result in the loss of the laboratory's accreditation with NIST. Businesses require certifications to be performed by accredited laboratories.

It is critical that the full compliment of standards be returned to NIST for recertification which will tighten the process control on the most used weights and get all the standards under one certificate of test. The metric denomination weights are the most used of all the standards and, therefore, are in the greatest need of recertification. A select group of the pound weights (i.e. 50lb., 20lb., 10lb., and the 5lb.) will be included but not the full set. As done before, the standards will be personally transported to NIST in order to prevent any shipping damage and also lessen the cost to insure the shipment in commercial transportation system.

<p>A measurement process control system is used in the laboratory to monitor the drift of standards by comparison to a summation of the weights that comprise a decade e.g.: 50,30,20 gram wts. compared to the 100 gram. In addition, inter-laboratory comparisons are performed within a group of 9 southwestern states in a measurement assurance program all of which indicates the need to have the primary standards recalibrated periodically. With the needs of some pharmaceutical, and other high tech companies that the laboratory does calibrations for it is imperative that the highest degree of accuracy is achieved.</p>

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Missouri received its primary standards and the instruments to use those standards in October 1968 as part of a grant from the U.S. Department of Commerce to participate in a national measurement system. The Metrology Laboratory has been providing measurement/calibration services to private industries, scale service companies, the parent division of Weights and Measures and other state agencies with this equipment. Due to years of use some of these mechanical balances have been replaced with digital electronic mass comparators as mechanical components wear and service parts are no longer available. The 30 Kg capacity balance which is used for masses from 5 kg (10 lbs.) to 30 kg (50 lbs.) has an unacceptable and increasing standard deviation (repeatability) which adds to the total uncertainty of the calibration process. Corrective repairs are not possible since parts are no longer available. Standard deviation of this balance throughout the 1980's and into the 1990's was less than 1.75 mg but presently repeatability has risen to 3.86 mg. To maintain our laboratory accreditation with NIST we need to provide a more accurate calibration and reduce the uncertainty.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an effectiveness measure.

Based on the two year interval for direct customer weight calibrations the number of weights tested in the 30kg balance is in the 46 to 50 count range. This does not include the interlaboratory comparisons performed for the regional assurance program or the internal calibration of working standards and check standards. Each year the laboratory calibrates a working standard for each denomination of weight tested which becomes the transfer standard and a check standard which servers as the measurement control system for the other weights of that denomination brought into the laboratory. Values for the working standards need to be as accurate as possible since this is the link in a chain of traceability for all other customer weights tested in the laboratory.

6b. Provide an efficiency measure.

6c. Provide the number of clients/individuals served, if applicable.

Not applicable.

6d. Provide a customer satisfaction measure, if available.

Not available.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

2. CORE DESCRIPTION									
<p>The Missouri State Fair provides an opportunity to communicate the story of Missouri's agriculture in ways that appeal to the state's citizens. This event improves the public's understanding of and appreciation of the role of agriculture. The Missouri State Fair is to showcase and inspire the best in Missouri agriculture, agri-business, domestic arts, and fine arts through competition and educational experiences and to offer quality entertainment. Missouri's agri-businesses add over \$17.5 billion to the state's economy. A prosperous agricultural economy is critical to the overall health of the state's economy. The Missouri State Fairgrounds provide space and facilities for the display of livestock, agricultural products, commercial exhibits, and other agricultural and industrial displays. The 396 acres contain a total of 105 buildings and 20 structures. In addition to their use during the annual State Fair, the fairgrounds host other types of exhibits, entertainment and sales events throughout the year, including livestock shows, group meetings, private functions and camper rallies.</p>

1. What does this program do?

The Missouri State Fair is to showcase and inspire the best in Missouri agriculture, agri-business, domestic arts, and fine arts through competition and educational experiences and to offer quality entertainment. Since the first Missouri State Fair was held in 1901, the event has been a showcase for agriculture. During the past 103 years, however, the state's population has become less familiar with production agriculture as more and more people have moved to urban and suburban areas. The Missouri State Fair blends agriculture, education, good value, and top-name concerts in a unique combination. The fair offers wholesome family entertainment at an affordable price. The Missouri State Fairgrounds provide space and facilities for the display of livestock, agricultural products, commercial exhibits, and other agricultural and industrial displays. The 396 acres contain a total of 105 buildings and 20 structures. In addition to their use during the annual State Fair, the fairgrounds host other types of exhibits, entertainment and sales events throughout the year, including livestock shows, group meetings, private functions and camper rallies.

2. CORE DESCRIPTION

Provides funding for the replacement of existing equipment and addition of needed equipment. The equipment is required to service and maintain the grounds and facilities.

The Missouri State Fair is host to many events throughout the year. These events require additional inputs of labor and equipment. Whether it is moving dirt into or out of the Mathewson Exhibition Center, grading and watering the half-mile track or mowing the grass in preparation for a camper rally, picnic, car show or other revenue-producing event. By providing continued service and maintaining an attractive grounds, our off-season revenue and attendance should continue to increase. If the grounds become unpleasant or we fail to satisfy our customers, off-season and fair attendance and the resulting revenue will fall.

PROGRAM DESCRIPTION

Department: Agriculture

Program: Grade A Milk Inspection

Program is found in the following core budget(s): State Milk Board

1. What does this program do?

Inspects, tests and grades the production and processing facilities for Grade A milk and products utilizing federal guidelines that assures interstate access to markets outside Missouri. Adherence to the adopted federal guidelines as over sighted by the Food and Drug Administration assures free marketing of raw milk for pasteurization as well as Grade A products produced in Missouri. The health of the consumer is safeguarded by strict adherence to these same standards. The labeling, product quality and integrity are assured by the Boards oversight of National Labeling act requirements. The Board is the administrator for inspection work as well as the milk inspection fee fund that pays for the program.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The Fluid Milk Law is in sections 196.931 - 196.959 RSMo.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Yes. The Food and Drug Administration requires adherence as over sighted by their milk safety department to allow our state industry access to out-of-state markets. The Health Department is utilized by FDA to inspect the Milk Board's work in this state.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Milk Inspection Fees (0645)

No Missouri milk or product were linked to food borne illnesses in the past 10 years.

7b. Provide an efficiency measure.

All plants inspected each quarter, pasteurizers time and sealed each six months, farms inspected each six months, all products tested each month. FDA oversight found no significant variances in it's past program review.

Plants 20 - Grade A
Pasteurizers 24 - Grade A
Farms 1,235 - Grade A

7c. Provide the number of clients/individuals served, if applicable.

The states consumer population as well as those served in other states.

7d. Provide a customer satisfaction measure, if available.

Not available.

PROGRAM DESCRIPTION

Department: Agriculture

Program: Manufacturing Grade Milk Inspection

Program is found in the following core budget(s): State Milk Board

1. What does this program do?

Inspect and test milk, plants and laboratories for manufacturing grade products such as cheese, butter, retorted drinks, and infant formulas. The manufacturing dairy farms and manufacturing grade plants and laboratories must meet sanitation requirements set forth in Title 21 CFR. The Board tests and licenses personnel that haul, test and solicit manufacturing milk as well as perform sanitation inspection work and pasteurizer testing and sealing in the plants. Training and testing for licensing purposes of industry personnel that perform milk sampling, testing and quality control work is accomplished by Board personnel under this program.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The Missouri Dairy Law 196.520 - 196.614 RSMo requires the Board to administer this program utilizing Title 21 of the Code of Federal Regulations.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No. However, the state's manufacturing dairy program is overseen by the U.S. Food and Drug Administration through partnerships and federal bio-security programs.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Not applicable

PROGRAM DESCRIPTION

Department: Agriculture

Program: Manufacturing Grade Milk Inspection

Program is found in the following core budget(s): State Milk Board

7a. Provide an effectiveness measure.

Missouri produced dairy products have not been linked to food borne illnesses in the past 2 years.

7b. Provide an efficiency measure.

Inspections have been performed meeting the minimum requirements of state law (but funding cuts and new work added by new production facilities have required variances from CFR good manufacturing practice recommendations). The Milk Board has at times had to stop inspections for lack of GR funds. The state has 414 manufacturing grade farms, 34 milk receiving stations, and 24 manufacturing plants.

7c. Provide the number of clients/individuals served, if applicable.

Missouri consumers as well as consumers out of state.

7d. Provide a customer satisfaction measure, if available.
